

LinkedIn

Hey IT folks!

We are compiling thoughts and experiences of IT practitioners with tools for software maintenance. Your voice is crucial in **shaping the future** of these tools!

We set up short surveys (approx. 5-8 minutes each) about **five different tool usage scenarios**. Your answer to **one or more surveys** would be of great value to us.

A **bot** that labels issues based on issue text

<https://forms.gle/oYTyxhbhirTaMgY3A>

A **dashboard** that presents the amount of code smells and technical debt:

<https://forms.gle/Jc6fsAeh2VsAHLe29>

An IntelliJ IDEA **plugin** that suggests refactoring actions:

<https://forms.gle/Tz3XcaCQ9jxiCg297>

A **Travis CI job** that notifies stakeholders considering quality metrics:

<https://forms.gle/MghJLApVPeMYLYC7>

A **bot** that facilitates code review in Github pull requests:

<https://forms.gle/bZkSBcjbXfmfavQ48>

All responses are strictly for **research purposes**. Your anonymity is guaranteed, and the compiled findings will be shared openly in a research article.

Your input fuels **innovation**! Please **share within your networks**; every voice counts! 🌟

If you have any **questions** about the survey, do not hesitate to contact us ;)
